The Courts and Beyond: The Architecture of Justice in Transition – CIAJ Conference
Calgary, Alberta October 10 - 12, 2012
“Planning and Design: Renovate/Innovate”
Kurt Sandstrom, Q.C.
Assistant Deputy Minister
Safe Communities
Alberta Justice and Solicitor General
Objectives of Presentation:

- Brief Background of the Safe Communities Initiative
- The Integrated Justice Services Project
- Lessons learned in innovation and systems change: Start big, finish small – build out.
Safe Communities – an innovative approach to an old problem

- At the direction of the Premier, Alberta’s Task Force on Crime Reduction and Safe Communities was established in March 2007
- Its mandate was to identify ways to reduce crime, improve community safety and improve public confidence in the criminal justice system.
- In fall 2007, the Task Force report “Keeping Communities Safe”, set out 31 recommendations that ranged from prevention to treatment to enforcement.
- Government accepted 29 of the recommendations
SafeCom Governance Structure

- Minister of Justice (now Minister of Justice and Solicitor General)
- Deputy Minister Committee – core ministries
  - JASG, Human Services, Health, Aboriginal Relations
- ADM Operations Committee – core and satellite ministries
- SafeCom Secretariat – ADM reports to all DM’s on issues of policy; performance managed by Justice DM (now Justice and SG DM’s).
SafeCom accomplishments

- Developed Alberta’s Crime Prevention Framework
- Developed the Alberta Gang Reduction Strategy
- Three years of learning from the Safe Communities Innovation Fund (SCIF): 88 innovative crime prevention projects totaling $60 million funded
- Legislative Reform:
  - Civil Forfeiture (Victims Restitution and Compensation Payment Act)
  - Body Armour Control Act,
  - Safe Communities and Neighbourhoods Act
  - Amendments to the Gaming and Liquor Act
  - Gunshot and Stab Wounds Mandatory Reporting Act
  - Witness Security Act
  - Missing Persons Act
- Integrated Justice Services Project
Integrated Justice Services Project

- History: Justice Policy Advisory Committee (JPAC) meeting December 8, 2009

  - Presentations on:
    - Mental Health Diversion
    - Drug Courts
    - Community Courts
    - Therapeutic Courts
    - Pathways to Housing
    - Red Hook Community Court, Vancouver Community Court

- Task: break down specialty silos and treat people in the justice system in an integrated and comprehensive way with wrap around services // break the offending cycle
IJSP

Started nimble: Representation from:
- Crown
- Provincial Court
- Justice
- Solicitor General
- Health

Commissioned Report from Dr. Pam Thompson – Safe Communities Opportunity and Resource Centre (SORCe) / Centre for Justice Innovation

Expansion to include Calgary pilot stakeholders - consultations December 6 & 7

Redesign – return to nimble (April planning meeting)

Four notional phases to the project (start small):
- **Phase I** – In custody – in progress/complete: transfer of treatment from Corrections to Health Services
- **Phase II** – Post sentence offenders sentenced to community
- **Phase III** – Post charge; pre-conviction
- **Phase IV** – Pre charge

Phase II launch of Safe Communities Resource Centre (SCRC) in Calgary, February 24, 2012

Phase III – working with Drug Courts

Phase IV – Planning sessions
- Legacy Centre, Sobering Centre, REACH Edmonton 24/7 service delivery model
- Planning meetings with Chiefs of Police September 21, 2012
IJSP lessons

1) Top down vs. bottom up:
   - Polarity management: Leadership from the top is key but solution lies with front line staff

2) Inclusive vs. nimble
   - Polarity management: small core vs. engagement of all key players

3) Understanding system of systems theory
   - Mandate encroachment and solutions

4) Big project vs. small pilots
   - Polarity management: big vision vs. “getting something done.”
   - Danger without an overall plan is risk of more silos.
   - Further integration is required
