

# Where Big Data *Meets Law*

Patricia Kosseim, Office of the Privacy Commissioner of Canada  
Canadian Institute for the Administration of Justice  
October 16-17, 2014  
St. John's NL

1. Big Data challenge our  
traditional concept of causation

2. Big data challenge traditional thresholds that shield us from the eyes of the state

3. Big data challenge our  
traditional regulatory models

4. Big data challenge our  
traditional fair information  
principles

5. Big data challenge our  
traditional understanding of **harm**

thank you. **Merci.**
