

AN OVERVIEW OF THE INCOME TAX IMPLICATIONS
OF MATRIMONIAL DISSOLUTION

Clayton Shultz
C.A., A.C.I.S., M.C.A.B.V.

Judicial Conference on Family Law
August 26 - 29, 1981
Vancouver, B. C.

This paper will discuss the manner in which Revenue Canada Taxation deals with people affected by family law judgments. It will consider the tax effects of orders relating to alimony and maintenance as well as those relating to transfers between husbands and wives. I hope that it will help to forestall the unexpected and unwanted hand of the taxman whose seeming goal is to frustrate the intent of many of those judgments.

MAINTENANCE AND ALIMONY

An observer of our tax system might be forgiven for questioning the zeal with which Revenue pursues marginal maintenance claims through the courts--particularly when the individual amounts of money seem trivial. Or why Revenue takes a rigorous legalistic approach even when that approach is obviously contrary to the intent of the legislators.(1)

The answer is money. In 1978, 144,815 Canadians paid a total of \$387,026,000 in alimony. But only 107,694 individuals reported \$296,610,000 in alimony. So \$90,416,000 in taxable income has become lost in the shuffle.(2)

Because most paying husbands are in higher income tax brackets than their receiving wives, the tax "leakage" increases. Consider too the accelerating pace of divorce and the apparent granting of spousal tax status to some common law or de facto relationships. Revenue Canada has a legitimate worry.

If we are to be sensitive to the taxman's view of this issue we must understand two things:

First--without express statutory provisions, alimony would be neither deductible nor taxable. (3) It's a consumption expense. It rewards conduct that may be contrary to public sentiment. Yet we permit deduction of alimony, maintenance and child support. The United States permits the deduction of alimony to the wife but denies deductibility to child support payments. Australia ignores the whole issue, except to permit the early alienation of trust income payable to an estranged spouse. (Unalienated income is taxed in the hands of the debtor for seven years.) Alimony and maintenance is deductible (and taxable) in Canada, but only if all the rules are obeyed.

Second--the essential character of tax deductible alimony is to be considered. It is better described in the French translation - pension alimenter - literally meaning "an annuity or a pension to provide sustenance."

Pratte, J of the Federal Court of Appeal, defines a maintenance allowance as:

"...a limited predetermined sum of money paid to enable the recipient to provide for certain kinds of expense; its amount is determined in advance, and, once paid, it is at the complete disposition of the recipient who is not required to account for it. A payment in satisfaction of an obligation to indemnify or reimburse someone, or to defray his or her actual expenses is not an allowance; it is not a sum allowed to the recipient to be applied in his or her discretion to certain kinds of expense." (4)

Earlier, the same Judge said:

"...alimony is a periodic allowance not only in the sense that the payor must make payments at regular intervals, but also in the sense that at regular intervals the payor must provide a sum adequate to maintain the payee until the next payment..." (5)

I find it useful to think about these definitions before advising whether payments are properly tax deductible maintenance or are simply masquerading as such.

To summarize the characteristics which together create certain deductibility to court ordered maintenance, the payments must be:

- in favour of the wife for the use of herself and/or children of whom she has custody; (6)
- payable and paid monthly, quarterly, semi-annually or annually; (7)
- payable only during the wife's lifetime - but not after; (8)
- not assignable; (9)
- payable after the entry of an order; (10)
- limited and predetermined; (11) and
- payable to a legally married spouse. (12)

To reemphasize - all of the above must be satisfied.

Some Specific Comments and Suggestions.

- Third Party Payments may be deductible.

In 1974 legislators enacted new sections of the Income Tax Act, by which it was obviously intended that payments made in favour of third parties instead of to the other spouse, yet pursuant to court orders for mortgages, tuition fees, property taxes etc. would be deductible to the payor and taxable to the recipient.(13) Revenue Canada, carefully reading all of the words of the new sections, noted that those new sections required all of the conditions of their predecessor sections to be fulfilled. Revenue quickly issued Interpretation Bulletin IT 118R to assure taxpayers that they would be taxed on all but direct payments in favour of the recipient wife. Fortunately, the Federal Court thought otherwise in Bryce v MNR (14) and permitted the deduction of such payments. Revenue Canada apparently considers the Bryce decision to have no wide significance because another case involving similar facts remains on the "appeals pending" list.(15) Judges ordering third party payments must therefore consider that the payor is exposed to possible reassessment.

- A lump sum is not deductible.

This is so, even if it is determined by commuting the present value of the maintenance payment that would otherwise be made. Also, the mere division of a lump sum into a number of instalments will not convert a lump sum into deductible maintenance. A recent decision of the Federal

Court--Trial Division denied the deduction of a fixed amount spread over some five years.(16) This important decision reminds us that the Pasco definition remains in high regard by the Federal bench.

- Catch up payments may be deductible.

As a matter of administrative policy, Revenue Canada permits the deduction of a lump sum "catch up" payment but it is essential that such payment be referable to some antecedent periodic amount.(17)

- Payments prior to an order will not be deductible. (18)

Sometimes Counsel request the court to "order" payments from some previous date so as to include actual earlier payments made. Unfortunately, a court order speaks from the date of pronouncement or entry (it is not absolutely clear which) and, like Omar Khayyam's moving finger:

"....having writ
Moves on: nor all your piety nor wit
Shall lure it back to cancel half a line
Nor all your tears wash out a word of it."

- Periodic payments may be weekly, monthly, quarterly, semiannually or annually. (19)

But an order requiring a husband to pay his wife's income tax would be attacked on the basis that such a payment is not "limited and predetermined."

- Inclusion of the intended tax burden in a pronouncement in an otherwise borderline situation may influence the tax courts.

The Tax Review Board noted with favour the inclusion of a provision burdening one party with tax costs in an otherwise tax defective agreement. (20)

- Alimony or maintenance obligations payable after the death of either party will be denied tax relief and may be taxable to the recipient or her personal representative.

I am aware that Section 10 of the Divorce Act permits alimony to continue after the death of the payor, but there is no provision for the deduction of a payment by an estate in favour of the deceased's spouse or for a surviving husband paying to the estate of a deceased wife - perhaps for the benefit of the children.

The Federal Court (perhaps wrongly) has suggested that "alimony or maintenance continues through the joint lives of the husband and wife, but terminates on the death of either." (21)

TAX ON PROPERTY TRANSFERS

Next, I want to spend a few minutes talking about the tax consequences of property transferred from one spouse to the other as a result of marriage breakdown. It is an area of great concern to the judges of my acquaintance because those taxes may change the balance that the judge intended to achieve.

In 1971 the Canadian Government introduced the taxation of capital gains into our tax system. The general rule is that one half the difference between the tax cost and the sales proceeds of a capital property (not all properties are capital properties) would be added to the seller's taxable income. Among the many rules for calculating capital gains are special rules for "deemed dispositions", including transfers between married and formerly married persons. The rules apply whether or not there is actual consideration for the property transfers.

The general effect of these rules is to permit transfers between spouses (or former spouses in settlement of matrimonial property rights) to occur without tax costs. I am coming to some important exceptions and refinements, but the effect of these general rules is that the wife steps into the tax shoes of her husband.

Closely related to the property transfer rules are those respecting the attribution of income. Those old rules, first introduced in 1917, required that the income from property transferred from one spouse to the other would always be taxed in the hands of the donor spouse - even unto substituted property. The wife could own the tree and the fruit but the husband must always pay tax on the fruit.

On February 26, 1981, important and welcome amendments were made to the provision dealing with inter-spousal transfers

and attribution. These changes are as follows:

Old Rule	New Rule
Wife assumes husband's tax cost (i.e. adjusted cost base) before written separation agreement and/or Decree Absolute.	No change
Wife assumes (former) husband's tax cost after written separation agreement and/or after Decree Absolute	No change, <u>unless the husband elects that specific properties pass at fair market value resulting in his paying tax and his wife's tax cost equalling fair market value.</u>
Income from transferred property attributable to the husband until the Decree Absolute	Income ceases to be attributed after the written separation agreement or after a judgment or order.
Taxable capital gains from the sale of transferred property attributed to the husband until the Decree Absolute	Taxable capital gain from sale of transferred property will <u>not</u> be attributed if after the written separation agreement or judicial pronouncement the parties elect <u>jointly</u> that the attribution rules shall not apply. Interestingly, a requirement that the parties continue to live separate and apart for twelve months after the transfer, is applicable to those transfers following written separation agreements but <u>not</u> applicable to court orders.

I am recommending to lawyers that, when their agreements contemplate some future election on the part of one or both of the parties, that they consider a mutual indemnification clause in the event that either party fails to cooperate in making the election. It may be that this technique has some application to your judgments.

COMMON LAW SPOUSES

This is an area where the legislators again obviously intended to change the rules to accommodate an increasingly common social phenomenon - one that has been formally recognized in the statutes of most provinces. It is of some interest to observe the manner in which that intent was carried out by the draftspeople.

First we turn to Paragraph 60(c) of the Income Tax Act where we are told that maintenance payments may be deducted if paid pursuant to an order of a competent tribunal to a person who is either a spouse or "an individual described in Paragraph 73(1)(d)." To learn about this individual, we turn to Paragraph 73(1)(d) and find two alternatives:

1. that the recipient must be within a prescribed class of persons,

or

2. that the recipient must be receiving the payment pursuant to a written separation agreement.

As to the first alternative, the definition section of the Income Tax Act says that "prescribed" means prescribed by regulation to the Income Tax Act. Regulation LXV provides that, for the purposes of Paragraph 73(1)(d), a prescribed class of persons means persons referred to in the Family Law Reform Act of Ontario! Of course that Ontario act covers only Ontario residents and, in any event, the criteria for recognizing maintenance obligations between common law spouses differ from province to province. We are thus left with the

paragraph 60(c) requirement that the payment must be pursuant to an order or judgment, and the paragraph 73(1)(d) alternative that it must be pursuant to a written separation agreement.

It seems to me that you are placed in the position of ordering the parties to enter into agreements! I think you should consider specifying where you intend the tax burden to fall.

JOINT AND SEVERAL LIABILITY FOR TAXES

The final instalment to this gloomy paper is a quick look at Section 160 - in my view, the most unfair in the whole Income Tax Act. This section places a joint and several liability for unpaid income tax on spouses in two ways. First, if a donor spouse has had income attributed back to him, and if he fails to pay the required tax on that attributed income, then the wife will be liable for it. Second, if, at the time of a property transfer, the transferor spouse owed tax, the transferred property may be attached to pay that tax debt to the extent of the property value on the date of transfer. This joint liability does not disappear merely because the property transfer is in accordance with a judgment or court order. (22)

Fortunately, the solution is fairly simple. If you believe that a husband has a tax bill to pay, and if it is your decision that he should pay it out of his remaining assets, then you should order the deferral of the transfer until after the granting of the Decree Absolute. In that way the transfer is not between spouses and cannot be attached.
