OVERVIEW

Dialogues on Judging: Challenges and Rewards of a Long-Serving Career is a unique program designed specifically for long-serving judges, presented jointly by the Canadian Institute for the Administration of Justice (CIAJ) and the National Judicial Institute (NJI). Through lectures, discussions, and interactive activities, it will allow judges to engage with, share, and learn from colleagues who are at a similar stage of their judicial career. The program will in addition provide judges with an open environment to reflect upon and explore the experiences accumulated from years on the bench, and transform this amassed knowledge into new and innovative ways of approaching their lives, their work as a judge and their roles as leaders within their court. With a maximum enrolment of 30 judges, the program will cover such areas as:

- adaptation to a changing landscape
- overcoming challenges over the course of a judicial career
- battling fatigue, stress and weariness
- intellectual refreshment and reinvigoration and lifelong learning
- recognizing achievements and rewards of a judicial career
- characteristics, roles and responsibilities of 'me as a decision-maker'
- giving back as a long-serving judge
- the changing relationship between judges and the public
- the evolution, art and science of decision-making
